

# Future of Health Data in Europe

Mahsa Shabani

Assistant Professor in Privacy Law

Metmedica, Ghent Univeristy, Belgium

Twitter: @mahsashabani

# Towards a complexer regulatory framework

- GDPR
- Data Governance Act
- European health data space
- ...

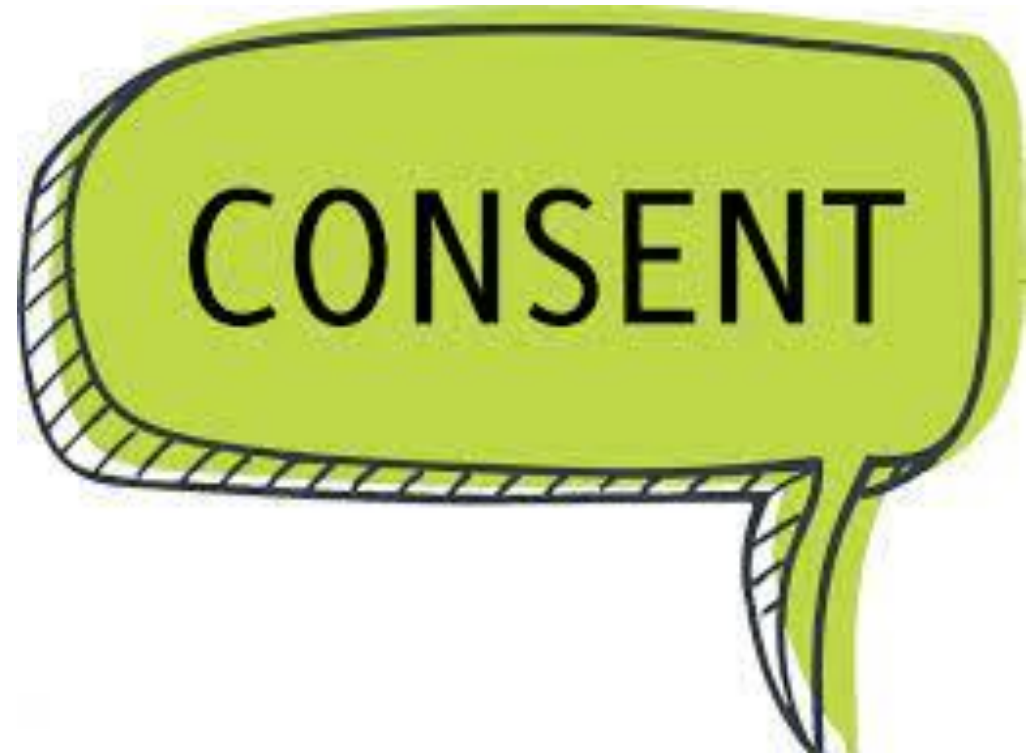

European Health Data Space

# Rethoric of individual control on health data

- Going beyond consent
- Empowering individuals to better exercise their rights : e.g. the role of data cooperatives (under data intermediation services/ DGA)

# Enhancing transparency in secondary uses of data

- Informational rights under the GDPR
- Transparency related rules under the Data Governance Act
- Provision of the information under the European Health Data Space

# Access control and regulatory and ethics oversight

- Role of Data Access Committee, Data Access Bodies and Data Altruism organisations
- Transparent, objective and fair rules for access
- Integrating oversight of ethics aspects in access review
